### Peer Committee Visit for the Validation of Autonomous Status

PSG CAS is an autonomous institution since 1978 and we are about to initiate the process for the extension of our autonomy status for the next cycle by December 2018. The University Grants Commission has brought in an amendment in the procedure for the extension of autonomy and accordingly we are supposed to go in for the Monitoring and Evaluation of the Performance and Academic attainments of the Autonomous Status from 2012 to 2017, through a committee constituted by the Internal Quality Assurance Cell of PSG CAS. The IQAC accordingly constituted a Peer Team of academicians and conducted a review on 30.10.2017 and 31.10.2017. The details of the members of the Peer committee are given below.

<b>Dr. P. LAKSHMANAPERUMALSAMY</b> Former Registrar, Karpagam University & Former Professor Emeritus Department of Environmental Sciences Bharathiar University, Coimbatore – 641 046.	<b>Chair Person</b>
<b>Dr. M. K. BABY</b> Dean of Commerce, HoD & Co-ordinator IQAC St. Joseph's College (Autonomous), Devagiri, Kozhikode, Kerala 673008	<b>Member</b>
<b>Dr. P. KRISHNASWAMI</b> Professor of Languages Director, Centre for Education Beyond Curriculum (CEDBEC) Christ University, Bangalore-560029	<b>Member</b>
<b>Dr. S. ALFRED CECIL RAJ</b> Associate Professor of Physics Dean & Member Secretary - IQAC St. Joseph's College (Autonomous), Tiruchirapalli - 620 002	<b>Member</b>

At first Principal made a powerpoint presentation on the developments made by the institution on attainment of autonomous status. This was followed by a discussion of the committee with the members of Curriculum Development Cell. The committee then visited the office of Controller of Examinations and to all the other departments and facilities.

**Observations and Suggestions of the Committee:**

1. The institution has sustained its quality standards all through its existence. The popularity of traditional courses are intact and this accounts for their good demand ratio. The institutions organogram is in place and a well planned academic calendar produces a healthy completion rate.
2. The level of ICT usage could be stepped up in all the three major areas of concern, Curricular Aspects, Teaching, Learning and Evaluation and Research, Innovations and Extension. An awareness about the Learning Management System (LMS) especially the usage of Moodle for teaching and learning and MOOC courses for expanding the knowledge base and also for a deeper involvement in cross cutting issues could be made. This will also help blended learning and flipped classroom. Though a bit expensive it is worth subscribing to online resources like JStore, Proquest and Khan's Academy.
3. The institution gives a considerable weightage to extra curricular activities with a good number of credits. To supplement the core subjects there are a good number of add-on and value added courses. Holistic Education offering basic skills - personal, interpersonal and societal skills could be introduced. LCD facility in all the class rooms will facilitate better delivery of lectures.
4. An Advisory Board consisting of academicians, researchers, industrialists, entrepreneurs and agricultural experts could be formed and their suggestions and opinions could be incorporated in the curriculum.
5. Capacity mapping of the fresh candidates may be introduced and suitable Remedial and Bridge courses be offered wherever necessary
6. Academic Plan: Presently curriculum revision is done on the basis of the feedback from the students. Feedback could be obtained from other stake holders too.
  - a. Emphasis may be laid on Outcome Based Education (OBE) while designing the curriculum as it is a basis of assessment by NAAC on Curricular Aspects.
  - b. By and large some departments put enough focus on extension activities and community activities. It could be extended to other departments.
  - c. Curriculum innovation could be enhanced in both UG and PG level.
  - d. Evaluation process is in place. To facilitate it faster, bar coding of answer books could be introduced. Examination Management System (EMS) could be automated and innovation could be attempted in evaluation.
  - e. To generate a zero-defect question paper, question bank could be created from which question papers could be generated

7. Faculty Quality: The institution has adequate qualified faculty and support staff. It has good connectivity with Industry, Institutes of National Importance and foreign universities. Student/Faculty Exchange Programmes could be explored with more institutions at the National and International level.
8. Research Plan: Research and Consultancy Policy need to be framed for increased research output. Short term and long term research plans could be made
  - a. The departments may undertake more sponsored projects from funding agencies
  - b. The faculty and students may be advised to publish research papers in UGC indexed journals
9. Student Admissions: The College has a very effective admission process adhering to the government norms. Results are announced on time Strategic Planning enabling the students to decide their future plans.
